

Musical Instruments

Read the passage below and answer the following questions.

Musical instruments are tools used to create and produce sounds. They come in various shapes, sizes, and types. One common type of musical instrument is the guitar. It has six strings that can be plucked or strummed to produce different notes and melodies.

Another popular instrument is the piano. It has a keyboard with black and white keys that are pressed to create sounds. The drums are another type of instrument that consists of different-sized drums and cymbals. They are played by striking them with drumsticks or hands. Other instruments include the violin, flute, trumpet, and saxophone.

Each instrument has its unique sound and playing technique. People learn to play musical instruments by taking lessons or practicing on their own. Playing an instrument can be a fun and creative way to express oneself through music.

Musical Instruments

Read the passage again and answer the questions.
