

# Months of the Year

Read the passage below and answer the following questions.

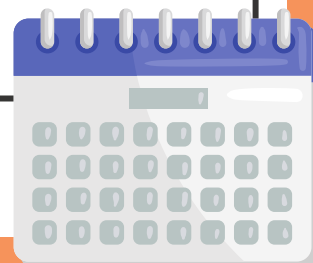

In a year, there are twelve special friends called the months. Each month has its own unique characteristics and brings different seasons and holidays.

January is the first month of the year. It is a time for new beginnings and setting goals. February is known for Valentine's Day, a day to celebrate love and friendship. March brings the arrival of spring, with blooming flowers and warmer weather.

April is a month of showers and the celebration of Easter. May is when the weather gets even warmer, and people enjoy outdoor activities. June marks the beginning of summer, with longer days and lots of sunshine.

July is a month of fireworks and barbecues, as people celebrate Independence Day. August is a time for vacations and enjoying the last days of summer. September brings the start of autumn, with falling leaves and cooler temperatures.

October is known for Halloween, a spooky holiday filled with costumes and treats. November is a month of gratitude and Thanksgiving, a time to gather with loved ones and give thanks. December is the last month of the year, filled with festivities and the celebration of holidays like Christmas and New Year's Eve.
