## Ward

A room in the hospital where patients stay to rest and get better.

## Radiology Department

The place where doctors take pictures of your body, like X-rays.

## Emergency Room (ER)

A special place in the hospital for people who need help quickly.

## Operating Room

A room where doctors do surgery to fix problems inside the body.

## Pharmacy

A place in the hospital where you get medicine.

## Waiting Room

A room where people sit and wait to see the doctor.

## Laboratory

A room where tests are done on blood or other samples.

## Cafeteria

A place where people eat food and drink in the hospital.

## Reception

The first place to ask for help and directions.

## Physical Therapy Room

A room where patients do exercises to get stronger and heal.

# My Body and Health Vocabulary

Healthy - Feeling good and strong.

Cough - A sound from your throat.

Cold - When your nose runs and you sneeze.

Fever - When your body is hotter than normal.

Sick - Not feeling well.

Dizzy - Feeling like you might fall.

Injury - A hurt or cut on your body.

Pain - A hurt in the body.
